

4th graders at Kendall Elementary School presented the play, "This Beautiful Land We Share," a theme musical, which consists of a series of songs connected with bits of dialogue, and examines our country and the people who live in it. The musical, written by Carmino Ravosa, celebrates the notion that it is our differences that make us such a great country.

4th grade students served as engineers for the production. Parents provided the set decorations.

4th Graders also served as narrators for the program
